Hi Peter

Thanks for this. I haven't spoken to David myself, but let me check with AEA. If they haven't, an informal discussion with him sounds useful.

Regards

Iain

**Subject:** FW: RHI (bio-liquids)

Hi Iain,

See below email from David Blevings, NI Oil Federation. Just wanted to check if either yourself or AEA have been in touch with David in regards to bio-liquid potential and resource in Northern Ireland?

David is offering a meeting on the 7th April with the CEO of OFTEC re RHI but as it would be in Northern Ireland I will advise him that this is unlikely to suit. Would you be content for me to mention that someone from the CEPA/AEA team will give him a call just for an informal discussion on bio-liquids in NI, unless you have already spoken to him of course?

Thanks,

Peter

Alison

I hope you are well?

Just to advise that we have the first two bio-fuel trial sites going live Monday 21st in partnership with the NIHE. These two properties are being run for a year on a 70/30 fossil kero/FAME blend and we will share the results of the trial with interested parties. The two properties are new conversions and we will also test run the mix in existing (older) conventional boilers in due course.

The purpose of my mail is twofold - to advise that we are starting and to see if you could advise the consultants that a very suitable date for meeting would be the 7th April as the CEO of OFTEC is in NI and I would like him to meet with the consultants to discuss RHI.  
Appreciate if you could pass this info on to the concerned party.  
Many thanks

David
