Chris

Please see attached and may I draw your attention to **2.7** and **2.8** in the attached document as discussed earlier. These concerns were highlighted at Hort 2012 in CAFRE and at Agri-Food Board Sub-Group.

If possible can you please highlight these concerns in our UFU response.

Many thanks for your help

Patricia

Elaine / Patricia,

I attach the response sent to DETI from BENI. There are a number important points relating to horticulture. I have copied to Elaine Shaw re. mushrooms.

Closing date for responses is Thursday 18 Oct.

It would be helpful to have some support if time permitted -- especially re multiple metering on glasshouse / mushroom units.

Ian
