The DETI Minister, Arlene Foster MLA, has officially launched the Northern Ireland Renewable Heat Premium Payment scheme (NIRHPP). The NIRHPP is a government designed scheme to help domestic householders afford renewable technologies that can heat their home. This is a short term measure prior to the possible introduction of a Northern Ireland Renewable Heat Incentive (RHI) for the domestic sector.

DETI is currently finalising proposals for a longer term RHI that will support installations in the non-domestic sector in the first instance, a further announcement will be made on the RHI scheme in due course.

Please see attached application forms and associated information relating to the Renewable Heat Premium Payment Scheme.

Forms can also be accessed online at the following;
