Subject: RE: NIRO and CHP

Chris

Non-wind technologies are covered under the Closure Order which came into operation at the end of September. Assuming the CHP station meets all the usual NIRO accreditation criteria, such a generating station has until 31 March 2017 to accredit. It can seek to accredit during 2017/18 if it meets the grid delay grace period.

Regards

Michael

Subject: NIRO and CHP

Good afternoon Michael,

A quick one for you.

I have had a member on the phone enquiring about NIRO support for a CHP unit. Obviously this is a non-wind technology, consequently does the NIRO for it end 31 March 2017 and will be subject to the Grace Periods announced by yourselves in the March 2015 consultation?

2

I look forward to hearing from you.

Chris.
