Subject: Belfast International Airport and Wind Turbines [Scanned]

Good afternoon Alex,

When we met in July 2012, the UFU raised problems experienced by our members wishing to build turbines within a specified radius of Belfast International Airport. The airport have been raising objections to the turbines on account of "possible" (and not confirmed) interference with the radar.

At the meeting we confirmed that there were similar problems in Scotland and these had been overcome by a simple "fix" on the radar and you said that you would raise this with your counterpart in Edinburgh.

Have you had a chance to raise this as yet? Reason for my email is that I have had a number of calls from members who have experienced objections from the airport (note that there are no other planning objections).

I look forward to hearing from you.

Chris Osborne
