RENEWABLE ENERGY

- Broad welcome for confirmation from Department of Enterprise Trade and Investment (DETI) in response to its recent consultation on changes to the NI Renewables Obligation (NIRO) that the **Renewable Obligation Certificate for 'anaerobic digestion facilities with a capacity up to 500 K** will now be doubled from 2 to 4 and is expected to take effect by 1 April this year.
- Welcome also for NI Assembly's **ETI Committee Inquiry Report** on the barriers to the development of renewable energy production to which the UFU provided an input. Impetus now not just with stakeholders but NI Executive in particular to act upon the Report's recommendations.
- The UFU has also been involved recently in several meetings, events and visits on issues associated with renewable energy.
