Ok let's do Tuesday
I'll send a response where I sit in relation to your points
Best
John

Sorry John just noticed a conflict could do Tuesday at 15:30 if that worked.

Agenda – really I am looking at how we get the Broiler Farms moving on to Biomass – both new builds and existing –

What is realistic?

What is the best model (RHI boiler sizing, fuel security/options, funding options etc.)?

I have chatted with Nigel Pitt and have some ideas of what they are thinking, been on a few farms with biomass (Maxwell & McIlroy) and in my previous existence I worked with Willow growers on funding etc.

Have had a brief chat with John Gilliland and will meet with him the week following.

Just want to ensure I am not duplicating any effort and want to get as much Moy Park knowledge positions as possible.

David

Ok David
Need to be sharp though as I have an evening appointment and it'll take an hour to get back to Ballymena
If you have a list of subjects for discussion I can prep
Regards
John

Could we do 16:00 Wednesday – we can hopefully find an empty office!

David I plan to be in Dungannon on Tuesday and Wednesday, prefer Wednesday to meet between your schedule if possible – suggest a time, will you book an office?

Best

John
