Biomass Boilers – not part of our contract – but if being fitted simultaneously happy they are included at growers request

Gas Boilers yes – in some cases with Turkey requirements Gas Brooders also included

Ventilation – big issue re operation and efficiency

Control Systems – yes how the windows, lights, ventilation, heating all link important

Generator operation

Feeder and Drinking Systems – clear out lifting washing

David

All,

Please see below an email from Bill Orr regarding his side of the CDM.

Below is a quick list that I could think of, can anyone add to this?

Wood chip Burners,

Gas burners,

Ventilation Systems/computer systems,

Water metres,

Hot water heating systems,

Control systems for lighting/windows

Thanks

Stephen

Stephen,

Would you list the all items which the farmers require training from the installers. eg wood chip boilers/gas boilers/computer systems/feed lines etc.

This will allow me to prepare a sign off sheet for each contractor who does the installation.

Any questions give me a bell.

Many Thanks
