[Feb Breeder PoP.xlsx](#)

Alan,

As discussed yesterday, please see attached an example of the monthly broiler report, and also a part-populated template for breeders (split between Grandparent and Parent and geographically). If your team is able to update and complete the base data on the breeder template for the farms as they stand then going forward, David and I can update on a monthly basis with the additions / removals of farms.

I trust this makes sense but please let me know if you have any query.

Regards,

Simon
