David,

I hope you are keeping well, I was speaking with your colleague Fiona who said I should contact you.

Action Renewables is a not for profit, registered charity which provides support to the renewable energy industry. It provides a range of renewable energy services including Renewable Heat Incentive (RHI) accreditations. You may already be aware of the proposed consultation by DETI into closing the RHI, which would potentially close on 31st March of this year. I was wondering if you would be interested in our service with regards to RHI accreditations.

With having a fantastic track record of RHI accreditations and a good working relationship with Ofgem/DETI, I believe our service would be able to help you during this period.

If you have any further comments or any queries please feel free to contact me at any time. If I am not available in the office my mobile number is – Personal information redacted by the RHI Inquiry

Kind Regards,

Mark Corrigan
