Bruce

My suggestion on this:

Irrelevant Information redacted by the RHI Inquiry

Get me the Biomass Quotation – I will check and split it into the Moy park supported bit (Holland plumbing to and from boiler house and Boiler House - £5K for 1 boiler house for 2 boiler houses)

I can then do an illustration of the position if you just go with Biomass now (RHI and Fuel savings versus less investment) and if you do both together taking in RHI, Fuel Saving, AHP on Windows and AHP on Heating.

Appreciate it's a big call but look at the numbers first.

David
