This document is the Moy Park information sheet on Indirect Heating and Biomass.

To become a “considered” supplier you need to contact this department with the following information:

If you propose to introduce a new Boiler Type then details of the manufacturer, years in operation, worldwide installed base and reference sites in Northern Ireland of 99kW Boilers.

If you are proposing to introduce a new type of heating system into the Broiler House again this proposal needs full explanation and referencing

Should you wish to install standard equipment as already listed then we need reference samples of your installation experience, insurance certification for full business cover and details of your manufacturing systems that control your professional certification of you employee/sub contract staff.

Happy to discuss ass required.

David
