David, the last figure I saw I believe was 77% of HWF group now with hot water heating with a further 200 boilers to be installed prior to the RHI payment changes at the end of September/start of October. Some of these will be going into what we would class as Std + housing. I have requested an update from David Mark.

&

Please see attached updated Intake weights for this week plus the Ashbourne and Anwick reports

&

Ballymena kill yesterday includes 8k carry over into today so expect a similar reduction on today's planned volume

&

Ashbourne currently cancelled 13.2k from today's plan

&

Regards
