I don't want them to drop the ball on this – it relates both to the decision to support hot water heating (which has our name all over it) and to the savings we negotiated in wood pellets – just want to keep giving them the best evidence and facts to allow best outcome for the negotiations!

I need to remind them of the actual Moy Park financial commitment to AHP for Hot water and the basis we justified that – Tom Forgrave is well rehearsed we need to be as well rehearsed the other way!

Have you the recent data on pellet usage GB? It is useful data for this

David

Morning David,

Is now the time to back out from this and leave it with them (advise Alan we can provide further support if required but it's now over to them?).

Regards,

Simon
