Michael,

Thanks for this – arrangements seem OK.

Stuart

Stuart, Joyce Rutherford is going which is probably enough Dept. representation. Following that she has arranged a meeting with Peter Hutchinson (DETI) , Peter Scott and I. see copy below.

A quick discussion on same would be beneficial as there are issues.

Hi Peter

I would like to arrange a meeting with you to discuss DARD thoughts on the proposals on a renewable heat incentive for NI.

I am aware that DETI are running a couple of workshops on the 8<sup>th</sup> Sept and the Action Renewables team running with a workshop the following week ( which I hope to attend) so I though perhaps the following week might be useful as you will be aware of many views which might be useful in terms of our discussions. Would Wed 21 September suit either morning or afternoon? Alternatively the 22<sup>nd</sup> is also free at the moment.

I would propose that Peter Scott and Michael Fairgrieve (Forest Service) would also come along.

Let me know what suits you best.  
Many Thanks

Joyce

**Subject:** Renewable Heat Incentive conference

Dear all,

Please note the following forthcoming conference on the Renewable Heat Incentive, hosted by Action Renewables:

# *Renewable Heat Incentive Conference & Exhibition*

(Registration 8.30am, starting 9am to  
1pm, followed by lunch)

Government and industry will present  
on the importance of the Renewable  
Heat Incentive Consultation

**Action Renewables**  
*the future of energy, today*

Wednesday  
14<sup>th</sup> September  
2011  
Ramada  
Shawsbridge,  
Belfast

*Tickets Cost £70 per  
person (+VAT)*

Email: [conference@actionrenewables.co.uk](mailto:conference@actionrenewables.co.uk)

Tel: 02890 727770/760

As you may be aware, DETI is currently consulting on a Renewable Heat Incentive (RHI), with the consultation due to close on the 3<sup>rd</sup> October 2011. Action Renewables is holding an informative half day conference to provide attendees with a clear understanding of the proposed RHI; information on its implications for the Northern Ireland renewable heat sector and information on how best to respond to the consultation.

The introduction of a RHI will have a significant impact on the renewable energy industry in Northern Ireland and the conference will be of particular importance to renewable energy installers hoping to carry out work under the scheme and consumers who may be able to benefit financially by installing a renewable heat technology.

An exhibition of renewable heat technologies and installers will run in parallel with the conference. Entrance to the exhibition is included in the ticket price of £70 pp (plus VAT).

If you have any further questions, please do not hesitate to contact Action Renewables by emailing [conference@actionrenewables.co.uk](mailto:conference@actionrenewables.co.uk) or telephoning 02890 727770 or 02890 727760.

**Best regards,**

Annika
