Subject: thanks RE: RHI Application HC, FIC & FTC

Cathal,

Many thanks for your update and ongoing work in this important area – the additional income will be very welcome,

Regards

Eric

Subject: RHI Application HC, FIC & FTC

FYI

I am working with Alternative Heat and Colum McMenamin to complete the RHI Applications for the biomass boilers at the HC Training building, the FIC and the FTC. I would anticipate the application will be completed and forwarded to OFGEM before Easter. As each case is a simple system we should receive our first payments by mid-summer. Following design specifications I would estimate an income of around £3000 for HC at RHI of 6.3p/kWh, £5000 for FIC at RHI of 1.5p/kWh and £7-8000 for FTC at RHI of 1.5p/kWh. Difficult to be sure with the new buildings.

Regards

Cathal
