> Folks, Please see attached calculation on the difference in income generated by the RHI for an average poultry from the original RHI Scheme pre 18th November 2015 against the revised 2- tier scheme from 18th November until 29th February 2016. Please look through and if there is anything you do not understand please get in touch with me. Note, effect of fuel cost (both LPG and Wood Pellet are included) but not additional cost of electricity as a result of conversion to biomass. If you can quantify this additional cost in can be deducted from the final figures.
