Hi Chris

A piece of work will need to be done to confirm but our current assessment is that we have achieved in the order of 6% renewable heat thereby exceeding our end of 2015 target. This has largely been brought about by the unexpected surge in applications in the run up to the November non domestic scheme changes, (over 900 applications received in the 6 week period prior to 18 November).

Regards

Seamus

Hi Seamus,

Would you be able to update me on something. The last figures I had were
By October 2015 – approx 4.2% of RHI target had been reached based on 2010
(1.7%)

Any idea what it was by end of 2015?

Talk soon
Regards
Chris
