**Subject:** Action Renewables: Renewable Heat Incentive conference - 20th June  
**Date:** 31 May 2013 14:37:46  
**Attachments:** [Attendee Booking Form.doc](#)

---

Hello Chris,

I spoke to your colleague, Sandra, she recommended I send this to you.

Action Renewables are hosting a conference that may be of interest to AFBI, the event is on the Renewable Heat Incentive (RHI) and is geared towards high energy users in the non-domestic sector.

The RHI is a Government scheme providing financial support to non-domestic renewable heat generators in Northern Ireland. I know that AFBI already have renewable heat technologies in use, so the RHI could generate a significant amount of money. The conference is designed to explain the A-Z process of how organizations can make the most of the incentive.

Speakers confirmed so far include:

- a. Michael Doran, Action Renewables – ‘What is the RHI and how does it work?’
- b. Dr John Gilliland OBE: How Biomass works – chip and pellet
- c. Viscount Brookeborough, Colebrooke Estate and Spa: currently benefits from the RHI using a biomass boiler
- d. Edmund Ward, Senior Technical Adviser, OFGEM: The Application Process, top tips, the mechanics of the scheme etc.
- e. Gaynor Hartnell, REA: “What we can learn from the experience of the GB RHI so far, and what are the outstanding issues/next steps”.
- f. Connel McMullan, Alternative Heat: Renewable Heat Case studies, including public sector installations

I have attached a booking form, if you want to attend you can let me know. The cost is £75 + VAT per person. You can call or email any time if you have any questions.

Many thanks,  
Neil Halliday

What it is? How it works? How do I apply?  
What is renewable heat?

We are delighted to announce that our highly anticipated Renewable Heat Incentive Conference will take place on Thursday 20th June 2013. This highly anticipated event is dedicated to educating local private sector businesses and public sector organisations on the benefits of the Renewable Heat Incentive (RHI) and explaining how you could be saving money for your organisation, and getting paid for generating heat from a renewable source.

The RHI is a Government scheme providing financial support to non-domestic renewable heat generators in Northern Ireland for the next 20 years. Launched in November 2012, the RHI is already helping a number of local businesses embrace renewable technologies and make significant savings on their energy bills.

The conference promises to be an informative and engaging event, featuring speakers from across the renewable energy industry talking about the scheme, its benefits, profiling case studies and most importantly answering your questions about the RHI.

We will also have an exhibition area, where manufacturers and suppliers within the renewables sector will be showcasing a wide range of renewable heating technologies which are eligible for installation under the RHI.

**If you are interested in attending the conference or exhibiting at the event please email [rhi@actionrenewables.com](mailto:rhi@actionrenewables.com).**
