All 100% makes sense – keen to be involved where we can.

Regards
Chris

Personal information redacted by the RHI Inquiry

Chris, will be about – you can get me any time on

Would like to discuss the possibility of a joint AFBI/CAFRE workshop on management of woodchip from planting through harvesting, processing and end use. There appears to be a lot of quality issues with wood chip currently and a large number of requests for information on producing own woodchip. A lot has to do with the benefits of the RHI as many see this as an opportunity to dry their own chip using a biomass boiler on which they can claim RHI.

Cathal

Hi Cathal,

I know I had a message from you the other day. I haven't had a chance to get back to my office and call you, apologies. Are you about tomorrow (Wed)?

Regards
chris
