Just to be clear- is this an agreed decision not to consult? The DETI Minister had approved on the basis of a consultation and I went through the pros and cons with Aidan last night.

Also the change can't be 'with immediate effect' – legislation is required.

Suggest you discuss with Chris asap.

Many thanks.

Andrew – please see attached revise of Urgent Procedure paper.

The aim now is to close the scheme as quickly as possible. I've amended the paper to drop the consultation references (tracked). I understand that the intention is to bring the paper into play as soon as possible so we would appreciate your thoughts / concerns on this suggested way forward

Regards

M

Michelle / Emer

Andrew C asked me to amend the paper to make clear that the scheme would close asap (post Committee approval) with no public consultation.

I've tracked changes to address this request (attached). Are there any other legislative issues that need to be flagged up in the paper as a consequence?

Glynis

This is a clean copy from DETI incorporating the various changes agreed earlier. It has not been cleared by the DETI Minister (who is travelling at the moment and is not contactable).

Clean copy as discussed.

Many thanks.
