Andrew, Eugene

I have discussed this with Tim, and a revised version of the submission will issue to Private Office shortly. Tim was persuaded of the need to retain the reference to the views of the Finance Minister.

Chris

Please see amended sub. The Minister made the decision to dispense with notice and consultation and no advice from other ministers or departments played a part in that decision.

I have attached a suggested amended sub to reflect this fact

Also I think we need to put something around an increase in audit arrangements in the letter and the press release to further discourage a fraudulent spike in the next week. See suggested amends

Tim
