Dear Mr Webb

Thank you for your email

DETI is currently looking at potential changes to the non domestic RHI in the autumn, (early October), as part of the outworking of the phase 2 review consultation from late 2013. The proposals under consideration concern a new tariff for combined heat and power,(CHP), to coincide with the changes to the ROC's and also cost control measures around biomass banding, and possible tariff tiers for biomass. Details will be published over the coming weeks.

I hope this is helpful to you.

Regards

Seamus

Subject: Biomass Heating

Dear Sir/Madam,

My Company are currently considering an investment in Biomass Boilers in Northern Ireland (circa £750k) and we have been told that you will be making an announcement in October in respect of future tariffs for non-domestic boilers. Can you please confirm whether this is correct, and what it is likely to contain?

Kind regards,

Robert Webb
