Dear Sir/Madam,

I with great disappointment & disillusionment that I learn that your-dept have decided to 'move the goalposts' re Biomass installations / RHI...

Can proper definitive advice be presented as we are real people running real business making long term financial decisions based on actual government policies. Apart from leaving me & many others in limbo it's an absolute disgrace that such a decision is attempted to be made just weeks before it 'officially' ends.

I currently have workmen on site preparing a shed for installation of the above piece of equipment, equipment is ordered, people are booked for installation etc can some one provide factual information urgently?

Regards,
Brendan MC Veigh
