Trevor

I was discussing with Terry this morning who raised a concern of the potential risk that inclusion of a reference in the published Governance Statement before we have in place any of the actions discussed on Wed could generate increased interest in applications to the scheme and exacerbate the difficulty. It would argue for silence at this point for wider interest. You might need to reflect on that risk in your consideration with NIAO.

Eugene

Trevor

We discussed the need for a short reference to RHI in the Governance Statement for the 2014/15 Accounts to be shared with NIAO in advance of your meeting tomorrow. I attach an alternative suggestion. I am sharing more widely in case colleagues wish to suggest any alternatives.

Eugene
