Subject: FW: Non-Domestic Renewable Heat Incentive (RHI) - Approvals
See final note on RHI that has issued to DFP. I have made a couple of changes mainly in the section relating to budgets, the position is more complex as spend and budget for the domestic scheme is interwoven with non-domestic in the overall picture on which we require clarity – and dfp is clear that it wants us to firstly engage with DECC and revert.
I have also had to reference that i will write separately around assurance on approvals as DFP specifically requested in our stocktake meeting that this be included in any communication.
Trevor
