Iain

I will forward you seamus's email and attachment – please review and we can then discuss.

Subject: Domestic RHI Approved Expenditure

Bernie

Sorry I never got back to you today . We should be able to provide you with the dom/non dom split of the £103m that was approved as part of the Dom RHI business case. We're having to extrapolate figures from old spreadsheets. Sandra was working on this today but is off tomorrow.

I've redrafted the DFP submission I had prepared following our discussion yesterday. It now seeks DFP approval for non domestic RHI expenditure from 1/4/15 to 30/9/16 on the basis that we will do the tariff changes, complete a review of the RHI and introduce the Phase 2 proposals (including introducing a system of digression). It also seeks approval to increase Dom RHI expenditure in line with our most recent forecast.

I've asked Seamus to share a copy of this with you to make sure you're happy with our approach. It still needs a lot of work including updated figures, etc but we would welcome your initial comments.

Thanks again for all your help.

Stuart
