Subject: RE: ACX/RHI 003 - Review of Draft Regulations

Alan

Apologies. I seem to have omitted a Ofgem additional request of my email. Under Regulation 6, Ofgem has advised that the biomass from municipal waste must not exceed 1 MW. Therefore it has been proposed the revise the Regulation as follows -

6. - This regulation applies if the plant complies with all the following requirements -

- (a) it generates heat from solid biomass contained in municipal waste;
- (b) it has an installation capacity of less than 1,000kWth;
- (c) it is not an anaerobic digestion station accredited under the NIRO.

Apologies for the omission

Thanks

Susan
