Subject: RE: Draft letter from Minister to Mervyn Storey Finance Minister - Closure of Renewable Heat Scheme
Date: 11 February 2016 11:24:45

John

Can we amend second para as follows

"I propose that the scheme will close on 29th February. This will effect closure as soon as practicable taking into account the need to address industry concerns and practicalities around the ending of the scheme. I understand that First and deputy First Ministers are content with this approach."

I'm not sure it's accurate we sought authorisation but none the less we asked them to discuss it and both indicated they were content through HOCs

If all content then it's good for Sean to bring to minister for clearance and signature and immidiate issue along with immediate issue of statement.
