

Energy - Moment

- # → Carbon Tax Proposals. - Potential NLS Problem with SEM.
- Renewable Heat "Incentive". "Heat from Renewable Sources" what way to run the fund. JS on 4 years.
- Electricity Market → Cycle wide Review of Electricity, about DEFI response. decarbonise).
- Offshore Renewable: DEFI looking to increase offshore ROC for tidal. Have done consultation. Cost vs benefit. Next Friday.
- Gas Extension: Consultation on Western Town - Transmission front Poor NPV - Subsidy, Relicitation.

Test Drilling - Primarily:

- Provide Sample 60% EVA 40% PPE
- ~~Cost~~ Bench. after I... roughly 20 case n Total
- Randomised Sample. Per Quarter.

- we do a report (for DFP / Audit Committee + Perm Sec).

- completed Q1 & Q2. (FY 10/11) drilling. waiting on Q3 to come through.

Previous both on case work. (Telecoms
 & ~~Telecoms~~ Energy / EU Cases / BT
 (Tourism). EU major cases (Airech to EU funds)

Camel worked on these also.

up & downs in terms of work.

end July : Min 6 Months

Undated note:

Believe to be from a
 de-brief with staff on
 upcoming work areas.

Believed to have occurred
 in Circa March 2011 shortly
 after I arrived in DFTI.
