Hi Francis,

If the earliest closing date is confirmed and you can meet all the deadlines etc, jobs 2-5 should still be okay, but job 1 doesn't look possible.

Will check further and get back to you tomorrow.

Many thanks and best wishes,

Andrew

Subject: RHI Scheme

Hi Andrew

As discussed this morning I have listed below the jobs we have on site at the moment.

1. Personal information redacted by the RHI Inquiry - 13kW + 17kW ground source heat pump
 2. Gareth Millar, Dungannon - 2 x 199kW pellet boiler
 3. Johnny Kirk, Saintfield - 199kW pellet boiler
 4. Ivan Scott, Hillsborough- 199kW pellet boiler
 5. The Crescent, Portstewart - 3 x 17kW ground source heat pumps
- Is there anything that can be done for these job on site?

We hope to have jobs 2, 3, 4 and 5 completed and the RHI applications submitted by Monday.

Will this be ok??

Job 1 will not be completed until 31st March 2016. We have his 4 x 120m deep boreholes installed at a cost of £12,480.00. The heat pumps are due on site on the 22nd March 2016.

We have not been paid and will not be paid if the RHI scheme closes before we have completed the works and submitted the RHI application.

Please can you get back to me asap as this has the potential to put us out of business.

If you have any questions or require any further information please let me know.

Regards

Francis Glackin
