Iain,

Just following on from our brief conversation on Friday, please see attached some light reading (include are some information on bioliquids, biomethane, biomass and deep geothermal that were provided as part of the consultation exercise.

This will give you some background to the issues raised in the consultation regarding technology assumptions and banding (referenced in the documents from BENI, Rural Generation, Action Renewables and UFU).

If you have any queries over the next week please contact Joanne McCutcheon (cc'ed) as I am out of the office until Wednesday, 4 January – will be in touch when I get back.

Thanks,

Peter

Peter Hutchinson
