Hi Fiona, i spoke with your PA a little while ago and the reason was to set up a meeting with you and Norman Crowley the CEO of Crowley Carbon, website below.

The reason for requesting the meeting is to discuss the renewable heat incentive (RHI) and the consultation document that is out at present. We have significant experience of the RHI in the UK and we are working with a lot of large NI businesses now who might benefit. We can give you the benefit of our experience.

It would be good to get an insight from you on the RHI and other strategic energy initiatives from DETI for NI businesses, businesses struggling with rising energy costs, static margins and increased pressure from their customers. Added to this is the issue of their competitors being better placed from a RHI point of view.

We look forward to meeting you.
