

Teleconference with Ofgem 18.6.14 4 PM.

Careth

Teri

Stephen

Nadia

Legal - Jade + Catherine.

Edmund

Context : arose 1 year ago.
C.T not considered public authority.
De minimis considerations.
Trying to reach common understanding.

Options

2 - renotify? Our regulations refer to grants, DECC did notification on behalf of DECC notification. Our regulations refer to grant aid other support.
- not support from public authority.

State aid issues.

DECC have talked to the Commission - not sure if this is about C.T.

Ni's intention that RHI alone was enough to fund technologies.

Methodology

Full capacity basis - EU asks for a reasonable approach.

Workaround - if 100% capacity brings us over de minimis level, it goes back to ~~the~~ applicant to declare estimated capacity

- use ~~fig~~ estimate of ~~to~~ hours used for carbon trust loan?
- Plant nursery is Agriculture. (15000 net 7500)
- Regulations ^{may} need amended to allow payback
- speak to DSO.

DEI to develop the ~~document~~ de minimis guidance?

Brian Doherty + Helen Rogers.

- ① 2 line email seeking Ofgem to ask applicants for estimated usage (probably for C.T loan)
