---

Alison, Peter,

Please find a summary report which can be circulated to the oversight group prior to the meeting on Thursday. This simply takes the main sections from the interim report to provide a shortened summary. I think it provides a good overview to the work done and some of the initial results. I have included a statement at the beginning regarding the results – these are clearly interim results which we don't think should be distributed more widely. It would be useful if you could reinforce this when circulating to the group.

Best wishes,

Andrew
