Dear Peter,

Please find attached the latest version of the final report as discussed. As you will see there are still areas we are working on – much of the work in the way of modelling results on the incentives is currently being written up and the information contained are some of the first outputs.

We have also included a draft executive summary and an outline list of recommendations. It would be useful if you could review these (as far as is possible with them in their current format) and send any comments to me.

At the meeting on the 26th, it would be useful to have an in-depth discussion on the recommendations so that we can finalise these in the final issue version. As Gareth suggested, the time before the meeting at 9.30 am may be too short and it would be good to spend longer discussing the results and the implications. Are you free after the main oversight group meeting for a session?

Please call me tomorrow if you have any questions on the attached.

Best wishes,

Andrew
