Peter

I hope you are well.

Attached is a revised version of the report following your discussions with Andy McCrea. I hope that we now have the conclusions and recommendations in a form which is suitable for circulation. I have made the following main changes:

- Removed the exec summary (for now)
- Tightened the conclusions and linked back to ToR
- Tightened the recommendations
- Included a discussion / further work which includes the other outcomes which are not directly linked to the ToR. At the end of this section is an expanded table which includes the recommendations and other items.

I hope the revisions are all along the right lines, but please call me if there are any questions – I will be off Monday morning but back in the office at lunchtime.

Best wishes,

Andrew
