Dear Alison,

Please find attached the latest version of the report with the changes as requested – I hope these are now as desired! During the changes, the “lead departments” column in the recommendations tables (table 41 and 42) became a little jumbled. Please can you review the yellow entries and amend as necessary.

At the end of chapter 13 (13.2 and 13.3) we have included some text in introduction of an incentive scheme and retrospective payments. It is not possible for us to give a detailed timeframe as clearly the introduction date depends on a number of prior bits of work and discussion around financing, both of which are relatively open. Therefore please can you review this text and remove reference to timescale if you are not happy about this.

If you are happy with this, I am happy to PDF following confirmation or am happy for you to PDF before circulating. Can I request that we are sent a copy of the Word Document with any final changes though.

Please feel free to call if you would like to discuss this with me.

Best wishes,

Andrew
