Jon

Many thanks - this is most helpful and will help us clarify our options in our economic appraisal.

We will of course still require Ministerial and DFP approval in due course for any scheme proposed here.

DFP would, I think, lead on feeding back to you on forecasting so I have passed on your email to our finance team here who will liaise with DFP in that regard.

Best Regards

Alison

Subject: [RESTRICED] RE: RHI NI

Alison,

Sorry for the delay in coming back to you. Taking your points in turn:

- i) With DECC, we have agreed that they can make commitments to spending in future years (up to 20 years) for installations that are installed within the SR period (i.e. the initial payments have to be affordable within the SR profile), and providing that the policy is set up so that payments should be basically flat over the 20 year period in real terms (i.e. no backloading to ease short-term affordability pressures). This same agreement would apply to any NI scheme.
- ii) DECC's GB RHI profile is £56m/133m/251m/424m. NI's share of this is 2.98%, so £1.7m/4.0m/7.5m/12.6m. The NI scheme would need to follow this profile as much as possible – on which further below. We will need you to feed into us forecasts of

NI RHI spending for the Office of Budget Responsibility's bi-annual forecasts – this can be fed through me or Mark Parkinson (in the Devolved Countries Unit within Treasury).

- iii) This funding does have to be used for renewable heat, but if NIE decide you would like to use it for a grant scheme or some such then this would be permissible as long as the cost of NIE spending is constrained to the AME consequential.

The other key point it is necessary to let you know about is that the DECC RHI spending is not being treated as standard AME, where the Exchequer takes on all risks of overspend. Instead, there is a risk-sharing arrangement whereby should RHI spending in one year exceed the SR profile, then DECC would need to repay this in future years. They can do this through announcing changes to the SR that will bring cost savings relative to the SR profile in future years. However, a small proportion of any required future savings (still to be determined, but likely to be of the order of 5%) will have to be funded through contributions from DECC's DEL. Again, these rules would be applied in equivalent fashion to NI.

Happy to discuss any of these issues in more detail.

Jon

We spoke briefly the other day about the £25m allocation to NI for an RHI.

Can I ask you to clarify for me :-

- (i) The position with the commitment to 20 year payments within NI.
- (ii) The process for advising on the spending profile of the £25m AME that we have been allocated.
- (iii) If the £25m can solely be used for an RHI - or we can use it to incentivise in a different way e.g grant ?

Happy to discuss.

AME budgets have just been confirmed by Treasury/ DFP. Your AME allocation for RHI is £2m in 11/12, £4m in 12/13, £7m in 13/14 and £12m in 14/15. This will be confirmed in writing to you early next week. I will discuss further with DFP and come back to you.

Alison

You may want to check with HMT that you can use some of the £25m for administration costs. DECC has to find the cost of administering the GB scheme from within its own DEL budget and that budget is very limited indeed.

Might be worth you and I having a quick word about this before taking this further with Ofgem?

Thanks.

Subject: Administration of RHI in Northern Ireland

Gareth

We spoke a long time ago about the administration of the RHI.

I understand that Ofgem e serve will be administering the RHI in GB for DECC.

Northern Ireland currently has CEPA and AEA carrying out an economic appraisal for us on a RHI for Northern Ireland and we hope to consult on the final form of that in the summer.

We have been allocated £25m from DECC for an RHI here and we would be keen to discuss if there is any way we could be included in the current system of RHI administration that is being planned for GB - in a similar way to current RO.

It is likely that our tariffs will be different to GB but in all other respects it looks like the final scheme will be very similar to the GB model. We will be including the need for MCS accreditation. It's unlikely we will be up and running before jan 2012 in any case.

I'm not sure if we should discuss with yourselves directly or via DECC or both so I am copying in Irrelevant information redacted by the RHI Inquiry from the RHI team in DECC as well.

Grateful if you can advise if this would be a possibility for Northern Ireland and what would be the best way to move it forward ?

Best Regards

Alison
