Subject: Renewable Heat Incentive / Linkages to gas extension
Date: 11 February 2011 16:49:00

Iain,

As discussed yesterday, it would be useful if you spoke to those involved in both DETI and NIAUR with the work on extending the existing gas network to inform the long-list of policy options for the ongoing RHI economic appraisal and to understand the potential synergies between the incentivisation of renewable heat and the roll-out of natural gas.

The appropriate contact points are;

- Fred Frazer (DETI) fred.frazer@detini.gov.uk / 02890 529 272
- Sarah Brady (NIAUR) sarah.brady@uregni.gov.uk / 02890 316 642 (Sarah also has a colleague Brian McHugh who has been involved in the gas work that it would be useful to speak to, she will make the necessary arrangements).

It may be that we need to involve gas colleagues again, in particular Fred Frazer, when considering the long list of policy options but at this stage it would be useful if you spoke.

Any problems with this let me know.

Thanks,

Peter
