---

Peter, Alison

Please find attached a copy of our interim report for this Tuesday's meeting. Obviously very happy to discuss any of it, but we'd be particularly keen to go through section 4, on options and appraisal. The main purpose of this meeting, from the project plan, is to get agreement on the options you want us to analyse in more detail. Following this meeting, we'd hope to be able to identify the shortlist of options. We also want to make sure that we are using the right assessment criteria for options, so grateful for comments on those too.

In the attached interim report, we also present the results of our data gathering; we hope to have detailed information on technologies in the next day or two. If you'd find it useful to have a follow-up discussion of that, very happy to arrange it, or we can take written comments – whichever suits you best.

Regards

Iain
