Kate

Many thanks. We do understand the position but since GB has already launched its RHI, we can't be seen to be lagging too far behind and there has already been some adverse comments and AQWs in relation to this. Therefore, if there are any opportunities we can seize to push this along, we are keen to take them.

Regards

Stephen

Stephen,

Rebecca is looking after this one I believe. Please note that the Commission will have only had a few working days since you submitted this, so I think it is probably not appropriate to push them on this just yet.

Gemma

I appreciate that the UK has a lot of environmental cases in the system at present, but we would

be keen to get build up some momentum on our Renewable Heat Initiative notification.

Any word yet?

If it would help, I will be over in Brussels on Wed 8th and Thur 9th Feb for the Regional Aid multilateral and I might be able to fit in a short meeting with the casehandlers.

Happy to discuss.

Stephen

Gemma's validated these now, so we should get an acknowledgement soon.

She informs me that there was an "invest NI development fund" GBER form which has also been done now.
