Emer/Angela

I have re-read the casework minutes (attached).

The minute – while quite brief given the length of the meeting – does cover the key DFP queries raised iro implementation of 2013 consultation recommendations, the need to consult on the 2015 tariff reductions, discussions with DECC and the explanation for the need for retrospective approval.

I have reviewed against my notes and have nothing further to add – do you have any points?

Would you provide any suggested amendments (in tracked changes mode) relating to the RHI casework minutes to me asap. I know that you mentioned in early in December that DFP had changes but due to work commitments it had delayed them. I am hoping to get these minutes finalised and signed shortly.

Thanks

I was wondering if DFP will have their draft comments regarding the RHI minutes with us this week.

Thanks

That's no problem next week will be fine. I was going to try and get them signed this week as I am off for a few days next week but if you would have them in by Wednesday 16 December that would be great.

Thanks

Lee-Anne

We will have comments on the attached minutes, however given current work pressures in DFP I cannot guarantee we will get these through for tomorrow's deadline.

I will try and get something through early next week
