Guys

Just to let you know what happened today. I had arranged to meet up with Alan as you know to go through the spreadsheets. Michelle and I did so and found it useful. We had agreed to meet again on Monday as there were a few things Alan couldn't explain and Shane wasn't back until Monday. However shortly after coming back from that meeting Tony got a phone call from Emer to say that it looked like they were going to take this to the Assembly on Monday and could we provide a note setting out our thoughts. That's why I had sent that more. I kept it high level. We can discuss more next week

Christine

As you may have seen from the e mails Patrick attended the meeting and judging from Michelle's subsequent note I did not see anything significant here other than to conduct some sensitivity analysis around key assumptions such as oil prices

I also had a lengthy conversation last night with Michelle to discuss the RHI paper and sent her a follow up note which I now see reflected in Patrick's email to Emer.

No doubt, this is still very much unfinished business which we will need to monitor.

So I think that we have done as much as we can so far.

All

Alan has kindly agreed to take some time tomorrow to run is through the detail of the spreadsheets received earlier today.

We can have the meeting in Belfast - Alan you may need to be in Adelaide to have computer access?

I am free all day tomorrow - can I make an opening suggestion of 11am?

Thanks

Michelle
