Dear Nicola

Thanks; I think the best source of information is paragraph 10.4.2 of the Red Book. Otherwise the machinery of government branch of OFMDFM should be able to help with technicalities like this.

I trust this helps.

Kind regards

Hi All

Please would one of you be able to confirm is there a form of wording that has to be used at the top of a set or Regulations that will be subject to the draft affirmative resolution procedure before the Assembly. If so, what is the wording and where exactly does it sit?

I looked up the Statutory Instrument Practice manual but this just talked about GB. Do we still have an equivalent of the Red Book where you can look up such things?

Grateful for any assistance.

Thanks

Nicola

Nicola

There is a difference between affirmative resolution (which means that the rule is laid **after** making but cannot come into operation unless approved by the Assembly) and a rule being laid in draft **before** making.

The appropriate headings etc. are set out in Part 10 of the Red Book- you can borrow my copy.

Regards

Brendan

Peter

I just thought I would drop you an e-mail to let you know where I am with this. I am about half way through the draft Regulations. I will send you a hard copy with suggested amendments written on once I have worked my way through the whole draft. Given that I am only in the office a half day today, will be tied up with meetings tomorrow afternoon and then will be out of the office until next Monday, it will probably be early next week before I can get back to you.

In the meantime, if any up-dated drafts come through please would you highlight any revisions made since the 30th August draft I have in red etc. This will save me unnecessarily checking through the whole draft again.

Thanks

Nicola

Nicola,

Please see attached latest draft at 30 August 2011.

We will shortly be seeking further revisions to this draft and we will keep in informed of progress of this.

Thanks,

Peter
