Peter

I have had a look over the draft EM and everything appears in order apart from at paragraph 1.2. In that paragraph you need to remove the references to sections 120(4) and 121 of the Energy Act as your draft Regs are not being made under those sections.

Annex A is technical and factual in nature rather than legal so I do not propose to comment on that.

I hope this is of assistance.

Kind regards,

Nicola
