Green New Deal

The Committee for the Environment held a stakeholder event on 12 January 2012 to take views on the draft Programme for Government.

Several stakeholders stated that one of the main priorities of the PFG should be on the opportunities for job creation from a low carbon economy and implementing the green new deal.

Members agreed that I should write to convey their support for this view and to ask for an update on how DETI intends to progress the green new deal.

Yours sincerely

Alex McGarel
Clerk
Committee for the Environment
