Me 19/12/16 09:28

Sent just now by Terry.

Andrew McCormick 28/12/16 19:53

Sorry Chris Simon and David Gordon have been inquiring re my possible statement. I will send you my work - which is much longer but I found it necessary to go right down to detail to see what is going on. Are you able to look this over in the morning? Sending now to home email. Many thanks.

Me 28/12/16 21:15

Andrew, on a quick initial read it appears comprehensive and accurate - certainly nothing that jars with my recollection. I'll give it a more thorough read in the morning.

Andrew McCormick 28/12/16 21:16

Many thanks. I've been working on it so will now send latest versions.

Andrew McCormick 15/01/17 15:12

To all four: 9 am meeting off tomorrow. Heather please cover RIA and give them my apologies.

Andrew McCormick 17/01/17 16:42

Sorry question re declaration of conflict of interest is pressing glad of advice asap. Many thanks.

Me 17/01/17 17:04

On a quick check I see no specific requirement to declare. However, the NICS handbook is applied by virtue of a provision in the standard contract, as is the code of ethics (apart from the section on political impartiality). Specific requirement not to misuse official position or information to further own private interests or those of others; or receive benefits of any kind that might be perceived as compromising integrity.

Andrew McCormick 18/01/17 07:17

Issue was just on GMU: did John Robinson declare interest to me. Yes but only yesterday. Or "there was no interest to declare, but JR has now drawn this to attention in case of misperception"?

Me 18/01/17 08:30

As John was appointed in May, any risk of perceived conflict of interest could relate only to the investigation of RHI, and not to its design, operation, oversight or closure. In my view the risk was small, but it would have been prudent to declare earlier. It may be prudent to ask now about NIRO. PS you should be aware of the quote from AF in the telegraph.

Me 18/01/17 19:46

Well done! A marathon under the most trying of circumstances. On a point of information; my inability to recall anything about 24 August has been troubling me, until I took the obvious belated step of checking my diary - I was in France...

Andrew McCormick 24/01/17 09:09

Please call asap when you can. Many thanks.

Andrew McCormick 15/02/17 09:26

Chris please see this from Joan. Can you give her a call asap please? Many thanks. Andrew. I apologise for texting but cannot seem to get through to ur office. Developments this wk in Dail cud prove diff for N/S project n I wud welcome a chance to speak to you. I am working at home 2day Personal information redacted by the RHI Inquiry or this mobile Many thanks Joan Smyth

Me 15/02/17 09:43

No answer - message left. I suspect it is about forthcoming ROI Judicial Review.

Me 15/02/17 12:02

Spoke to Joan. Concerns over Dail motions tomorrow. Urged calm - FF and FG trying to outdo each other in cynical posturing. We will stay well clear and concentrate on the PAC hearing. I will keep in touch with Joan.

Andrew McCormick 15/02/17 12:35

Many thanks
