As discussed see below... if you didn't mind I wouldn't mind a line inserted around any allegations of wrong-doing.

SB

Personal response issued by Stephen Brimstone.

I applied to the Non-Domestic Renewable Heat Incentive Scheme to heat a agricultural workshop/shed together with my residential dwelling which is sited close to the shed. I was successful in my application. A routine audit of the installation was requested by OFGEM which I had no difficulty in accommodating. I received a subsequent letter from OFGEM stating that they are satisfied my installation is compliant.

Line around any allegations....

I will be making no further comment.
