Dear Sir

Re: The Independent Public Inquiry into the Non Domestic Renewable Heat Incentive (RHI) Scheme
Provision of a Section 21 Notice requiring the provision of evidence in the form of a written statement

I am writing to you in my capacity as Solicitor to the Independent Public Inquiry into the Non Domestic Renewable Heat Incentive (RHI) Scheme (known as 'the RHI Inquiry') which has been set up under the Inquiries Act 2005 ('the Act').

I enclose a copy of the RHI Inquiry's Terms of Reference for your information.

You will no doubt be aware that the RHI Inquiry is conducting its investigations into the matters set out in its Terms of Reference. The Inquiry is continuing with the process of gathering all of the relevant documentation from relevant departments, organisations and individuals. In addition, the Inquiry has also now begun the process of requiring persons who have been, or who may have been, involved in the range of matters which come within the Inquiry's Terms of Reference to provide written evidence to the Inquiry Panel.

In this context, it would be of assistance to the Inquiry to have a statement from you setting out the involvement of Green Energy Technology Ltd, its servants and agents, ('the Company') with the Non Domestic Renewable Heat Incentive Scheme in Northern Ireland ('the RHI Scheme').

In keeping with the approach we are taking with others, the RHI Inquiry is now issuing to you a Statutory Notice (known as a 'Section 21 Notice') pursuant to its powers to compel the provision of evidence in the form of a written statement in relation to the matters falling within its Terms of Reference.

The Section 21 Notice enclosed with this letter requires you to provide evidence to the RHI Inquiry Panel in the form of a written statement addressing the matters identified in the Schedule to the Section 21 Notice. As the text of the Section 21 Notice explains, you are required by law to comply with it.

Please bear in mind that, although the RHI Inquiry now has a good working knowledge of the RHI Scheme, the witness statement required by the enclosed Notice is likely (in common with others) to be published by the RHI Inquiry in due course. It should therefore ideally be written in a way which is as accessible as possible in terms of public understanding.

The aim of the enclosed Notice is to require you to provide all relevant evidence within your knowledge and that of the Company which is pertinent to the Inquiry's Terms of Reference. The Schedule to the enclosed Section 21 Notice provides further detail as to the matters which should be covered in the written evidence which is required from you. In the event that there is a category of information in respect of which you or the Company have no evidence, please state this in your response. Where you or the Company can provide evidence, then the more comprehensive your statement is, the less likely it is that the Inquiry will have to revert to you at a later stage for clarification, although in many cases this is likely to be necessary to some degree.

Receipt of this correspondence and its enclosures places you under a duty of confidentiality to the RHI Inquiry in respect of them. You may share the

correspondence and the enclosed Notice with your legal representative(s), and with relevant employees, servants or agents of the Company but neither you nor they may show, communicate the contents of, or provide this correspondence or the Notice to any other person or organisation without the express permission of the RHI Inquiry. Any breach of this duty of confidentiality is actionable at the suit of the Inquiry Chairman.

You will also find attached to the Section 21 Notice a Guidance Note explaining the nature of a Section 21 Notice and the procedures that the RHI Inquiry has adopted in relation to such a notice. In particular, you are asked to provide your evidence in the form of the template witness statement which is also enclosed with this correspondence.

Given the tight time-frame within which the RHI Inquiry must operate, the Chairman of the Inquiry would be grateful if you would comply with the requirements of the Section 21 Notice as soon as possible and, in any event, by the date set out for compliance in the Notice itself.

Finally, I would be grateful if you could acknowledge receipt of this correspondence and the enclosed notice by email to Patrick.Butler@rhiinquiry.org.

Please do not hesitate to contact me to discuss any matter arising.

Yours faithfully

Patrick Butler

Solicitor to the RHI Inquiry

02890408928

SCHEDULE

[No 297 of 2017]

1. Summarise the involvement of Green Energy Technology Ltd, its servants and agents ('the Company') in each of the following areas during the period from 2010 onwards:

a. the Renewable Heat Industry in Northern Ireland;

b. the Renewable Heat Industry in Great Britain;

(such as, for example, involvement in the manufacture or supply of biomass fuel, involvement in the manufacture, supply or maintenance of biomass heating plant, involvement in any relevant representative bodies, etc.).

2. Explain any direct or indirect involvement that the Company had in the Non Domestic Renewable Heat Incentive (RHI) Scheme in Northern Ireland ('the RHI Scheme') or any aspect of it prior to its suspension in February 2016, including, in particular:

a. any involvement that the Company had in the process leading to the creation of the RHI Scheme;

b. any involvement that the Company had in the 2011 public consultation exercise concerning the proposed Scheme;

c. any involvement that the Company had in the 2013 public consultation exercise concerning the RHI Scheme;

d. the nature and number (or approximate number) of commercial transactions (if any) engaged in by or on behalf of the Company connected to the RHI Scheme (such as, for example, the supply and installation of biomass heating plant for accreditation under the Scheme) including a breakdown of the number of such transactions

engaged in by or on behalf of the Company in each relevant financial year and the name and address of the other party / parties to each such transaction;

e. whether the Company, either directly or indirectly, ever earned any tariff income from the RHI Scheme and, if it did so, provide details of each sum earned by it as well as details of when, how, the precise installations in respect of which, and the terms under which, it earned same;

f. (if applicable) the Company's experience of the amount of time (in terms of days or weeks) that typically elapsed between:

i. the date of biomass heating plant being ordered and its installation;

ii. the date of biomass heating plant being ordered and its commissioning into service;

iii. the date of biomass heating plant being ordered and its accreditation under the RHI Scheme;

iv. the date of application for accreditation of biomass heating plant under the RHI Scheme and its accreditation;

(if, in the Company's experience there was no typical time lapse in this regard and/or if the typical time lapse changed as each year passed, then please provide details of both the minimum and maximum periods experienced by the Company in respect of each of the foregoing sub-paragraphs and/or break your answers down by reference to each relevant year);

- g. any involvement of the Company in representative, trade, or other similar groups along with other persons or bodies with an interest in the Renewable Heat Industry in Northern Ireland and/or the RHI Scheme;
- h. any involvement, whether direct or indirect, that the Company had in advertising or promoting the RHI Scheme (including, in particular, making unsolicited visits or approaches to potential applicants under the Scheme), and/or providing information, education, assistance, guidance or advice regarding the Scheme (including, in particular, in respect of the financial benefits available, and the possible rate of return and/or income that was achievable, under the Scheme), to the Northern Ireland market including details of every step taken in this regard, the date (or approximate date) when every such step was taken, the persons in respect of whom every such step was taken, and the results of same;
- i. any involvement of the Company:
 - i. in preparing or conducting applications for accreditation on behalf of applicants under the RHI Scheme including whether, if the Company had such involvement, the said services were provided in connection with a related commercial transaction involving the Company (e.g. a contract for the installation of biomass heating plant);
 - ii. in directing its customers to any other persons who could provide services in respect of preparing or conducting applications for accreditation under the RHI Scheme on behalf of those customers;
- j. any involvement of the Company in, or any knowledge on the part of the Company of, any arrangement or practice under which Ofgem gave priority to certain classes of applicant for accreditation (e.g. applicants in a particular sector in the economy, applicants associated with

particular suppliers or installers, etc.), including full details of any such arrangement or practice;

- k. any potential risks, flaws, problems, anomalies, loopholes, or other issues regarding the proposed RHI Scheme, or the RHI Scheme as enacted, which came to the Company's attention, including details of when the Company first became aware of each such issue and the actions (if any) taken by the Company as a result;
- l. any instances of whistle-blowing by or on behalf of, or to, the Company in relation to the RHI Scheme, or any disclosures made by or on behalf of, or to, the Company raising concerns about the RHI Scheme, of which you are aware, including details of when such communications occurred and to whom, and by whom, each such communication was made;
- m. any instances of lobbying or encouragement, by or on behalf of the Company, of Ministers, Special Advisers, Civil Servants, politicians, political parties, their respective servants or agents, or other relevant persons in relation to the terms of the RHI Scheme and/or the introduction, non-introduction, variation or delay of the introduction of cost controls into the Scheme (including, but not limited to, the amendment of tariffs, tiering, degression and Scheme suspension or closure).

3. Based upon the Company's technical experience and expertise, please explain the following:

- a. Typical life-spans of biomass heating plant (including an explanation of how, if at all, this is affected by load factor) and the options available, and associated costs, for seeking to extend the life-span of such plant;

- b. The process for rating such plant (including, in particular, the difference between biomass boilers rated at 99kW and those rated at 100kW and how such rating is achieved, verified and monitored);
 - c. The technical and environmental reasons why one might, or might not, use a multiple number of lower rated boilers at a particular site rather than a lesser number of higher rated boilers at the site.
4. Without prejudice to the generality of the foregoing:
- a. summarise the involvement (if any) of the Company in the Non-Domestic Renewable Heat Incentive Schemes in each of Great Britain ('the GB Scheme') and the Republic of Ireland ('the ROI Scheme');
 - b. summarise the key differences (if any) between:
 - i. the GB Scheme and the RHI Scheme;
 - ii. the ROI Scheme and the RHI Scheme;of which the Company was aware prior to November 2015, with particular regard to biomass heating plant;
 - c. clarify whether the Company, prior to November 2015, considered the RHI Scheme to have the potential to provide a greater financial return, for persons seeking to generate heat through eligible biomass heating plant and/or for those persons commercially connected to them such as suppliers or installers, than the GB Scheme and/or the ROI Scheme, and, if it did so consider, explain the Company's reasoning in this regard;
 - d. clarify whether the Company, prior to late November 2015, considered the RHI Scheme to be potentially more open to abuse or gaming, for persons seeking to generate heat through eligible biomass heating plant and/or for those persons commercially connected to them such as suppliers or installers, than the GB Scheme and/or the ROI

Scheme, and, if it did so consider, explain the Company's reasoning in this regard;

- e. if the Company at any such time considered the RHI Scheme to have the aforementioned potential to provide a greater financial return, and/or to be potentially more open to abuse or gaming, than the GB Scheme and/or the ROI Scheme, set out in detail the actions (if any) taken by the Company as a result of, or which were influenced by, such knowledge or belief on its part (e.g. focussing its commercial activities in the NI, rather than the GB or ROI, market, or communicating with Ofgem or other persons about potential abuse or gaming).

5. Without prejudice to the generality of the foregoing:

- a. please provide details of all communications, passing in either direction, between the Company or any person connected to it (on the one side) and Ministers, Special Advisers, Civil Servants, politicians, political parties, or their respective servants or agents (on the other side) in relation to the introduction, non-introduction, variation or delay of the introduction of cost controls into the RHI Scheme (including, but not limited to, the amendment of tariffs, tiering, degression and Scheme suspension or closure), in particular during 2015 (providing the nature, date, and place of each communication as well as details of the persons between whom each such communication occurred);
- b. in particular and, once again, without prejudice to the generality of the foregoing, please provide details of each and every communication between the Company or any person connected to it and officials in the Department for Enterprise, Trade, and Investment ('DETI'), DETI Energy Division, and/or DETI Renewable Heat Branch in relation to the introduction, non-introduction, variation or delay of the introduction of cost controls into the RHI Scheme (including, but not limited to, the amendment of tariffs, tiering, degression and Scheme suspension or closure), in particular during 2015 (providing the nature, date, and

place of each communication as well as details of the persons between whom each such communication occurred);

- c. identify each and every document containing, recording, or relating to the communications to which reference is made in sub-paragraphs a. and b.;
 - d. please provide details of all communications, passing in either direction, between the Company or any person connected to it (on the one side) and any persons *other than* Ministers, Special Advisers, Civil Servants, politicians, political parties, or their respective servants or agents (on the other side) in relation to the introduction, non-introduction, variation or delay of the introduction of cost controls into the RHI Scheme (including, but not limited to, the amendment of tariffs, tiering, degression and Scheme suspension or closure), in particular during 2015 (providing the nature, date, and place of each communication as well as details of the persons between whom each such communication occurred).
6. In respect of the period prior to the suspension of the Scheme in February 2016, and to the extent that it has not already been covered when addressing the issues raised in the preceding paragraphs of this Schedule, please provide details of all dealings that the Company, or other persons connected to it, had with:
- a. Ministers, Special Advisers, Civil Servants, politicians, political parties, or their respective servants or agents;
 - b. Ofgem, its servants or agents;
 - c. persons *other than* Ofgem, Ministers, Special Advisers, Civil Servants, politicians, political parties, or their respective servants or agents

which are relevant to the matters that the RHI Inquiry is investigating as set out in the Inquiry's Terms of Reference.

7. Identify any instances, of which either you or the Company is aware, where a Minister, Special Adviser, Civil Servant or any other person involved in the RHI Scheme (including, if applicable, yourself):
 - a. breached relevant standards (including, but not limited to, the Nolan Principles, the Ministerial Code of Conduct, the Civil Service Code of Conduct, the Code of Conduct for Special Advisers and/or terms or conditions of employment or service) or acted in a way incompatible with their duties;
 - b. acted in circumstances relating to or touching upon the Scheme in any way where they had a real or perceived conflict of interest;

in respect of any such instances, providing details and specifying the basis for any belief that there has been a breach of a relevant standard or duty or that a conflict of interest arose.

8. Provide any further evidence within your knowledge or belief, or that of the Company, which is relevant to the matters that the RHI Inquiry is investigating as set out in the RHI Inquiry's Terms of Reference.

NOTE:

It is important for the efficiency of the RHI Inquiry that the issues identified above are addressed as fully as possible and by reference, where available, to the dates and locations of specific incidents to which reference is made. The statement should be broken down into paragraphs, which should be numbered sequentially from '1' to the end. The use of appropriate section headings or sub-headings is also encouraged. A template witness statement is provided with this Notice for your assistance and should be used as the format for your response.

INQUIRY INTO THE RENEWABLE HEAT INCENTIVE SCHEME

RHI REF: Notice 297 of 2017

DATE:

Witness Statement of:

I, John Martin , will say as follows: -

1.

- a. Supply, install and maintenance of biomass heating systems.
- b. Not applicable.

2.

a. No involvement.

b. No involvement.

c. No involvement.

d. The company supplied over 100 heating systems for the non domestic RHI scheme. Given the deadline for submission of evidence, to list each individual transaction with all associated data would require a considerable amount of time and office staff work hours, which could not be completed within the timescale. If however, individual evidence on a particular case is required we would be happy to provide such information.

- e. GET supplied, installed and maintain 3 biomass boilers under the non domestic RHI scheme to a local B&B and Design Studio.

Personal information redacted by the RHI Inquiry Flatfield House B&B, 71 Lany Road, Moira, BT67 0PA. installed 13/10/14.

Personal information redacted by the RHI Inquiry RW Design Studio, 71 Lany Road, Moira, BT67 0PA. installed 17/05/13.

Payments received to date: £10,061.31

f.

- i. order to installation date varied on each individual project. At times we had boilers in stock, and others were on a 6-8 week lead time.

- ii. from order to commissioning varied on each individual project depending on how much work was required on site, either by us or by others. In some cases 8-12 weeks.

- iii. not applicable as accredited by others.

- iv. not applicable as accredited by others.

g. not to my knowledge.

- h. most of our enquiries came direct from individual customers. We did attend shows, like Balmoral Show, to advertise our company and products. Any information given was calculated from DETI information on tariffs and rates.

i.

i.GET completed 1 accreditation on the first boiler it supplied under the Non Domestic RHI scheme. Subsequently all applications were dealt with by a third party.

ii.a third party completed the accreditation.

j.not to my knowledge.

k.not to my knowledge.

l.one instance where a customer disconnected our remote monitoring equipment and refused to have the boiler serviced as per scheme and manufacturers requirements. This was notified to Ofgem by email around September 2016.

m.we may have expressed concern on the announcement of the closure of the scheme around January or February 2016 to various industry representatives.

3.

a.a biomass boiler could have a life expectancy of 40-50 years, if installed, maintained and operated correctly. Wearing parts will need replaced, but the main boiler body if made from good grade steel should never require replacing. As with any plant or equipment increased work hours will reduce life expectancy.

b.this is determined by the boiler manufacturer and independent testing facilities across Europe.

c.multiple boilers may be required for various reasons: seasonal demand, domestic hot water demand, heating demand, back up demand.

4.

a.no involvement in GB or RoI schemes.

b.

i. no involvement in GB or RoI schemes.

ii. no involvement in GB or RoI schemes.

c. no involvement in GB or RoI schemes.

d. no involvement in GB or Rol schemes.

e.no knowledge.

5.

a. RHI - Monitoring and Reporting

Peter Lonton

Dear Mr Simon Hamilton and Team,

I work in the renewable energy sector and have extensive knowledge in metering and monitoring of biomass heating systems. Our company works with biomass boilers on a daily basis and thoroughly understands the RHI scheme and its limitations. I understand that you and your team have recently visited one of our installations at Moore Concrete in Ballymena.

As I am sure you are all too aware, one of the concerns that has been highlighted as a result of the inquiry into RHI is the potential for exploitation of the scheme and fraud. As a result of my experience in monitoring, I believe your department can reduce the potential for fraud which would in turn result in a lower future overspend. Effective monitoring would help you to ensure applicants are genuine and that the scheme's rules as set out at its inception are being adhered to. It would also provide your department with an audit trail to demonstrate effective management of scheme expenditure going forward.

To help you enforce the rules that already exist within in the scheme we would propose the following monitoring and validation service(s). This could be done very cost effectively and would involve:

- assessing the boiler system and its application;
- installing a monitoring unit providing data collection on a 30 minute basis from the customers meters;
- auditing key components e.g. boiler, pipe work, and installation against the application;
- asset tagging and sealing to prevent modification or manipulation of the heat meters;
- provision of data trends - a performance report could be provided on a monthly basis cross referencing the original application, fuel receipts and submitted data. A historical data trend could also be compiled.

I felt the need to contact you with this proposal as the green energy sector has suffered a great deal of damage as a result of the problems with the RHI scheme and this is a potential way to limit that damage and hopefully begin to improve the image of renewable energy once again.

I am happy to discuss any or all aspects of the above proposal with either yourself or a member of your department, or indeed if you require any assistance with any auditing that is already under way, please do not hesitate to contact me.

R

21 December 2016 Dear Mr Lonton Thank you for your email of 9 December 2016 to Minister Hamilton about the non domestic Renewable Heat Incentive Scheme, (RHI). The Minister has read your correspondence and asked me to reply on his behalf. The Minister has noted with interest your proposals that could improve controls within the RHI and thanks you for bringing this to his attention. He has asked that I forward it to our scheme administrator, Ofgem for their consideration. Yours sincerely Lucy Marten Head of Renewable Heat Branch

b.no communication to my knowledge.

c. email sent to dfe and response received from dfe.

d.other than verbal communication between staff, no communication to my knowledge.

6.

a.no dealings.

b.no dealings.

c.dealings with Action Renewables about RHANI and the RHI scheme.

7.

a.not aware of any instances.

b.not aware of any instances.

8. No further evidence.

Statement of Truth

I believe that the facts stated in this witness statement are true.
